**Additional Considerations**

Rates evaluated each fiscal year and subject to change. For purposes related to budgeting multi-year projects, an annual 5% increase in user rates should be anticipated. Pre-payments are not allowed under any circumstances. All payments must be for services rendered. Services purchased with sponsored funds must be directly allocable to the funding project. Direct materials cost estimates available upon request. Some resources have a daily maximum reservation. Training required for self-service use. Multifunction space technology reservation costs calculated using a variety of factors. Typical multifunction space technology reservation for commercial use is \$100.00. For Maine residents engaging with IMRC Center as an individual rather than as a business entity, a 30% discount is available, at the discretion of IMRC Ops Manager, on listed IMRC Personnel and/or Facility Spaces rates.

As a University of Maine facility, The IMRC Center is a place of interdisciplinary, experiential learning first and foremost. We ask all users to understand that equipment and technology may falter or be busy from time to time and that students or staff may make mistakes during their experiential learning process. In accessing IMRC services, all users acknowledge that all best efforts are made to set and meet clear expectations of service excellence in accordance with the [Operational Guidelines & Essential Functions of the Center](#), under the guidance of [UMaine Research](#), and in alignment with the [Vision & Values of the University of Maine](#).
